

NMFRI opinion about "lean cod"

NMFRI is answering on recent ,fishermen opinion of the "lean cod" and "ecological catastrophe." followed by the media.

NMFRI can't remain indifferent to the disinformation campaign because it's referred not only to the Institute, but mainly to fishing and, consequently, in the well-understood interest of fishermen. NMFRI decided to comment in a simple, understandable to a wide audience as a body usually preached opinions on cod fishing in the Baltic Sea and NMFRI feed politic.

If you are interested, NMFRI can expand each response based on detailed research, data sources and scientific literature. All opinions and commented on the allegations contained in the quotations come from the media or who have been directly at those meetings.
